

**Project Design Phase-II**  
**Open Source Frameworks**

Date	03 Nov 2023
Team ID	NM2023TMID4218
Project Name	Building a Website Using Canva

**Creating a floral boutique website using Canva may involve integrating open-source frameworks and tools to enhance its functionality and design. Here are some open-source frameworks and platforms you can consider for building your website:**

**1. WordPress with WooCommerce:**

- WordPress is a highly versatile and user-friendly content management system.
- WooCommerce is an open-source e-commerce plugin for WordPress that's ideal for creating an online store for your floral boutique.
- You can find many free and premium themes that work seamlessly with Canva's design capabilities.

**2. Magento:**

- Magento is a robust and scalable open-source e-commerce platform.
- It offers a wide range of features for building an online store, making it suitable for more complex e-commerce websites.

**3. PrestaShop:**

- PrestaShop is another open-source e-commerce platform known for its simplicity and versatility.
- It's well-suited for smaller to medium-sized floral boutiques.

**4. WooCommerce for WordPress:**

- WooCommerce is an open-source e-commerce plugin for WordPress, and it's a powerful choice for adding e-commerce functionality to your Canva-based website.

**5. OpenCart:**

- OpenCart is an open-source e-commerce platform that is lightweight and user-friendly, making it a good option for smaller online stores.
